

# Meneray Fishing and Ice Camps Diorama Unveiled at Cabot Head Light.

*Submitted by Ina Toxopeus*

At 13:00hr on Saturday, July 16th. The Friends of Cabot Head hosted the unveiling of the Meneray Fishing and Ice Camps diorama. Along with Board members of the Friends of Cabot Head, Mayor Milt McIver and Bonnie McIver, visitors and a large number of the Meneray family were present at the unveiling. The diorama highlights the life of the Meneray family at their fishing and ice cutting camp at the mouth of the Wingfield Basin. Exact detailing on the diorama was possible only through the memories of the brothers Bill, Maurice, Norm, Roger and sister Pricilla Meneray.

The Friends of Cabot Head owes a huge "Thank You and a Job Well Done" to the 7 gentlemen of the Peninsula Carving club, who volunteered over 2000 hours of research and labour in order to complete the project. This diorama is the latest of our museum upgrade. This project was funded through the donations of the many visitors to the lighthouse and member of The Friends. We hope that the general public will come out to view this spectacular snap shot of Peninsula history.

The diorama group members from left to right: Clive Morgan, Brian Swanton, Doug Ludwig, Wayne Beutel, Mike Marshall, Stan McClellan with Jim White (absent).
